

TOUCHBOARD

LED Mounting Systems

TouchBoard Mounting Systems are designed to provide mobility and flexibility to your TouchBoard investment. Being both mobile and height adjustable there are now endless possibilities across your education facility, corporate environment, government department or professional stage.

TouchBoard Mounting Systems

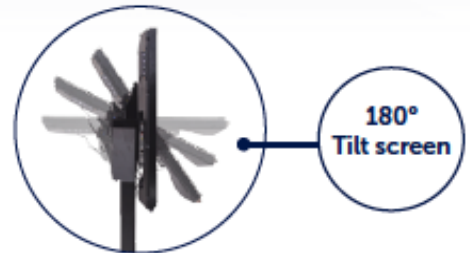

TouchBoard Mounting Systems provide a comprehensive range of professional mounting solutions suitable for all modern LED Touch Screens. Quality in design and manufacture with a variety of options, TouchBoard Mounting Systems reduce your IT Investment by providing a platform to share devices across multiple areas.

Designed and developed in Australia, TouchBoard Mounting Systems are heavy duty, provide exceptional value for money and is supported by a comprehensive 5 year warranty.

TABLE EASEL

The new TouchBoard Table Easel is designed to provide complete flexibility in any learning/presentation area.

It allows for use in a vertical position as a normal interactive panel or in a horizontal position as an interactive table with a smaller group of users. The TouchBoard Table Easel is sturdy and robust and easy to manoeuvre between areas.

MOBILE HEIGHT ADJUSTABLE

HEIGHT ADJUSTABLE COLUMN LIFT

The TouchBoard Height Adjustable Column Lift has all of the benefits and flexibility of the TouchBoard Table Easel without the added tilt function. Being mobile it is easily moved between areas

and being height adjustable it caters for differing age groups and needs. Like all TouchBoard products, it is designed to carry the higher weight of modern LED touch panels.

MOBILE FIXED OR HEIGHT ADJUSTABLE

The TouchBoard Mobile System is engineered from high tensile steel and rigid aluminium materials and designed to support modern LED TouchBoards up to 136kg. Available in fixed height or the option for motorised height adjustable

to provide added flexibility for mixed or shared learning spaces. A central laptop tray and webcam mount are included as standard. Other options include a lockable AV Cabinet and TouchBoard Soundbar.

WALL MOUNT FIXED OR HEIGHT ADJUSTABLE

The TouchBoard Wall Mount System has strong aluminium extrusions to transfer the load bearing aspects to the floor rather than the wall making it ideal for mounting larger LED panels up to 136kg in places where existing walls may not be structurally adequate. Available in fixed

height or motorised height adjustable to provide added flexibility for mixed or shared learning spaces. A central laptop tray and webcam mount are included as standard. SoundBar options also available.

KINDY TROLLEY

The Kindy Trolley is designed to enhance Early Years learning. A 55" or 65" interactive touch panel is mounted securely to the kindy trolley low enough for even the youngest of users.

The Kindy Trolley includes a fold down laptop shelf and four removable storage draws to make play and pack-up easy and convenient. A whiteboard is mounted on to the back side of the trolley allowing for added flexibility.

Heavy Duty Mounting Systems

STURDY AND ROBUST, DESIGNED TO SAFELY HANDLE THE WEIGHTS OF HEAVIER MODERN LED MULTI-TOUCH PANELS
